Profile

Data-driven Power Platform Analyst that has experience spanning roles within the Department of Transportation (DOT) and the Department of Homeland Security (DHS), focusing on security and data analysis. I am proficient in the Microsoft Power Platform, including Power Apps and Power Automate. Specializing in data visualization and process enhancement, I contribute to solving complex business challenges in a timely manner.

Experience

SIERRA7 – BOOZ ALLEN HAMILTON (CONTRACT)

MARCH 2021 – CURRENT

Power Platform Analyst

Experienced Power Platform Specialist with expertise in designing and maintaining SharePoint lists, libraries, and custom solutions to support Microsoft Power Apps. I have designed and implemented Power Automate Flows across a range of Office 365 Applications, ensuring compliance and governance throughout.

SYSNET TECHNOLOGIES

JUNE 2017

Application Analyst

I have a proven track record in developing enterprise business automation solutions using Dynamics 365, PowerApps, Power Automate, and Power BI. I supported the maintenance and enhancement of the VA's RMF policy requirements and guidance portal on SharePoint. I also possess a comprehensive understanding of NIST SP 800-53 rev 4 requirements and their application within federal security policies and directives.

DEFENSE POINT SECURITY

DECEMBER 2016

Data Analyst

Detail-oriented Data Specialist with expertise in monitoring and maintaining data accuracy in Project Online, Power Apps and Splunk. Skilled at gathering business requirements for new reports and applications, translating business needs into effective solutions. Demonstrated expertise in Information Security Continuous Monitoring (ISCM), including selecting appropriate security requirements to be assessed during continuous monitoring.
